Testing & Tooling: Jest, Mocha, Git, npm, yarn, webpack

Practices: Agile / Scrum / Kanban, Code Review, Mentoring, Distributed & Async Collaboration

PROFESSIONAL EXPERIENCE

Nisum

Aug 2021 – Present

Principal Software Engineer | Karachi, PK

Clients & products: Williams-Sonoma · Backcountry · MotoSport · HomesGlobe · QBric AI · CodeCure AI

- Build scalable, responsive UIs for US e-commerce (Williams-Sonoma, Backcountry, MotoSport) and healthcare products with onshore and offshore teams, turning requirements and high-fidelity mockups into pixel-accurate code.
- Contribute to frontend architecture in a micro-frontend (MFE) monorepo, building reusable, accessible (WCAG) components shared across React, Next.js and Vue applications.
- Integrate REST APIs and back-end microservices, managing application state with Redux, Redux Toolkit and Vuex.
- Improved load time and Core Web Vitals (LCP, CLS) on web and mobile via deferred scripts, lazy loading and leaner imports.
- Migrated a legacy AngularJS tool to React.js and a PHP storefront to a Next.js monorepo, reducing technical debt.
- Maintain and extend the Backcountry React Native app, shipping features and fixing production bugs to improve stability.
- Run code reviews, enforce coding standards and mentor engineers on frontend best practices and AI-assisted development.

Cooperative Computing

Nov 2020 – Jul 2021

Software Engineer | Karachi, PK

- Migrated the B2B marketplace app [Dastgyr](#) from Expo to bare React Native, unlocking native modules and performance headroom.
- Implemented OTP autofill to simplify onboarding and improve sign-up completion.
- Built the appointment module for Degree37, a blood-donation platform, and owned unit and functional testing across releases.

Batoota / NytroTech

Nov 2019 – Oct 2020

Mobile Application Developer | Karachi, PK

- Built frontend features for Batoota.pk, a travel-booking app, and the frontend for NytroTech's cross-platform VPN mobile app.

Third Venture Interactive

Jul 2018 – Oct 2019

React Developer | Karachi, PK

- Built web and mobile apps with React.js and React Native, working with tech leads on specifications and testing.
