

MUHAMMAD FAHAD KHAN

Senior Software Engineer | React · Next.js · React Native · Node.js

mfahadkhanashrafi@outlook.com · github.com/fkashrafi · [LinkedIn URL] · [Phone] · Karachi, Pakistan

Open to Fully Remote roles (worldwide) · Comfortable across US & EU time zones

PROFESSIONAL SUMMARY

Senior Software Engineer with ~7 years delivering high-performance web and mobile apps across the React ecosystem (React.js, React Native, Next.js) and Node.js. Proven at leading front-end architecture, migrating legacy platforms to modern frameworks, and optimizing Core Web Vitals for large-scale US e-commerce. Pairs solid engineering with AI-assisted development to ship faster. Already collaborates daily with US-based teams across time zones — seeking senior fully-remote roles.

CORE SKILLS

Languages & Frameworks: JavaScript (ES6+), React.js, React Native, Next.js, Node.js, Vue.js, Web Components

Frontend: HTML5, CSS3, Responsive Design, Web Accessibility (a11y / WCAG), Reusable Components, Design Patterns

State & Data: Redux, GraphQL, REST APIs, Microservices Integration

UI Libraries: Tailwind CSS, Chakra UI, Ant Design, Material UI, Bootstrap

AI-Assisted Development: GitHub Copilot, Cursor, Claude, ChatGPT; AI prototyping (Lovable, v0); prompt-driven scaffolding & code review

Performance: Core Web Vitals, Lazy Loading, Code Splitting, Bundle Optimization

Testing & Tooling: Jest, Mocha, Git, npm, yarn, webpack

Practices: Agile, Scrum, Kanban, Code Review, Async Communication, Distributed / Remote Collaboration, Mentoring

PROFESSIONAL EXPERIENCE

Nisum

Aug 2021 – Present

Senior Software Engineer | Karachi, PK

- Lead front-end architecture for large-scale US e-commerce platforms (Backcountry, Motosport), building reusable, accessible (WCAG) component libraries that speed delivery and keep the UI consistent.
- Improved Core Web Vitals by deferring non-critical scripts, lazy-loading components, and trimming library imports — cutting initial load and lifting LCP and CLS scores.
- Led end-to-end modernization: migrated a legacy AngularJS tool to React.js and a PHP storefront to a Next.js monorepo, integrating multiple back-end microservices and reducing technical debt.
- Maintained and enhanced the Backcountry React Native mobile app, shipping features and resolving production bugs to improve stability and user experience.
- Integrated AI-assisted development (Cursor, GitHub Copilot, Claude) into the daily workflow for scaffolding, refactoring, and code review, accelerating delivery while holding code quality.

Cooperative Computing

Nov 2020 – Jul 2021

Software Engineer | Karachi, PK

- Migrated the B2B marketplace app Dastgyr from Expo to bare React Native end-to-end, unlocking native modules and performance headroom.
- Implemented OTP autofill to simplify onboarding and improve sign-up completion.
- Built the appointment module for Degree37, a blood-donation platform, and owned unit and functional testing across releases.

Batoota / NytroTech

Nov 2019 – Oct 2020

Mobile Application Developer | Karachi, PK

- Developed front-end features for Batoota.pk, a travel-booking application in the style of Booking.com.
- Built the front end for a cross-platform VPN mobile app (NytroTech).

Third Venture Interactive

Jul 2018 – Oct 2019

React Developer | Karachi, PK

- Built web and mobile applications with React.js and React Native and collaborated with technical leads on specifications and testing.

KEY PROJECTS

QBric AI QA Tool (Nisum) — AI test-automation platform; built the reporting/dashboard UI. *Tech: React.js, Next.js*

Homesglobe — Real-estate e-commerce site with admin panel. *Tech: React.js, Ant Design, Tailwind*

Backcountry Imaging Tool — AngularJS → React.js migration, end-to-end. *Tech: React.js, Chakra UI, Jest*

Cloud Cost Optimization Engine (CCOE) — Cloud-cost portal (reporting, filtering, pagination). *Tech: React.js, Node.js*

CodeCure AI — Micro-SaaS & brand site built with AI-assisted development. *Tech: Next.js, Lovable*

EDUCATION

B.Sc. in Computer Science

2012 – 2016

Federal Urdu University of Arts, Science & Technology — Karachi, Pakistan
